Operational/ZIPPER
Subject of Reference

Reference: EGLA-6025

Subject of reference has been assigned the number V-9134.2, and the cover name TRIENE. He is proposed by OV "G" for recruitment to exploit his business connections with a Hungarian trade delegation which comes to FRANKFURT periodically, and with which Subject deals on behalf of his firm. Subject's firm represents the Hungarian export monopoly for agricultural products in Southern Germany. Subject personally concludes all agreements with the Hungarians, and claims that one of these (para. 3, EGLA-6027) can probably be approached. Although ZIPPER comments that Subject has no previous intelligence experience, he appears to have developed his contacts with the Hungarian trade delegation during the past year with defection/recruitment in mind. Presumably he was acting on the instructions of V-9134, to whom, as Subject's number indicates, he is subordinate. V-9134 is a "Special Connection", as yet unknown, but we will determine his identity before this operation gets underway. It is currently planned to utilize Subject of reference only as a spotter, and make approaches to the Hungarians, if any are made, through other ZIPPERites without business ties to the Hungarians, or ^{no} holding official positions which might be adversely affected by attempting such approaches.
